SUMMARY

Web Developer with hands-on experience in MERN stack development, focused on building responsive and efficient web applications. A quick learner, passionate about programming, and adaptable to new technologies, aiming to grow and contribute effectively in collaborative development teams.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman

Soft skills: Communication, Problem Solving, Adaptability, Time management

EXPERIENCE

Full Stack MERN Developer Intern

June 2025 - present

Synnefo Solutions Kochi, Kerala

Built full-stack web application using MongoDB, Express.js, React.js and Node.js .Developed RESTful APIs and integrated frontend with backend. Implemented responsive UI components using React and Tailwind CSS. Managed database operations and performed CRUD functionalities.

Web Development Intern

Dec 2024 -Feb2025

Wogle Tech, Bangalore , Karnataka

Built interactive web-based applications using HTML, CSS and JavaScript. Implemented responsive design to ensure usability on multiple devices. Practiced frontend development and debugging.

PROJECTS

Contact Management Application

I developed a Contact Management Application using React JS that allows users to add, view, update, and deletecontact details, implemented state management using React Hooks, and integrated local storage to ensuredata persistence while maintaining a responsive and user-friendly interface.

Contact Management System

Developed a full-stack College Management System using the MERN stack to streamline academic and administrative processes. Implemented secure authentication, role-based access for admins, faculty, and students, and features such as course management, student registration, and timetable handling. Built responsive React interfaces and RESTful APIs with Node.js and Express, with MongoDB used for efficient data storage and retrieval. Focused on clean code, scalability, and performance optimization.

Double Barrel (Team Project)

- Collaboratively developed a product application as part of a team project.
- Worked on designing and implementing key features of the application.
- Contributed to requirement analysis, application workflow, and functionality development.
- Coordinated with team members to ensure smooth integration and timely completion of the project.
- Gained hands-on experience in teamwork, problem-solving, and product-based application development.

EDUCATION

2022-2025	Computer Application at Musaliar College of Arts and Science
2022	Class 12th SNDP HSS Chennerkara, Pathanamthitta, Kerala
